Midterms see record voters cast ballots
by SHAWN SMITH
Tuesday, Nov. 6, 2018, marked the 2018 midterms, and the people broke record-high numbers. Voters across the nation took on their social responsibility and polled in the result to many historic firsts.

This year’s midterm led to a political shift in the House of Representatives from the Republican to Democratic majority. In the other half of Congress, the Republican party retained control of the Senate. Predominantly, a party majority swap is the major highlight in any midterm election, but, this year, it was overshadowed by the turnout of both voters and nominees.

This election year can be classified as one of the most influential years for women politicians. With the Republican to Democratic house flip, the majority of the early seat changes were by women. Tennessee voted Marsha Blackburn for their first female Senator. Massachusetts voted in Congress. Alexandria Ocasio-Cortez became the youngest woman ever elected to Congress. The age of 29. Kristi Noem became South Dakota’s first female governor. In Texas, Veronica Escobar and Sylvia Garcia were elected the first Latina congresswomen.

The incredible boat won the Bobcat Regatta with a boat named after Disney’s The Incredibles. The incredible boat won boat design in the race.

SGA also had a booth where they had saved art available for people to make colorful and unique pieces of jewelry. Along with their own booth, members of SGA worked with other organizations and clubs who were there as well.

Recently, Sherrie Heims, Director of Student Conduct, reached out to the organization to help come up with a new name for the Student Code of Conduct. Everyone members came up with Code of Ethics and Bobcats Morals. Dr. Deborah Voss, Vice President of Academic and Student Affairs, sat in at one of their meetings and suggested the Bobcat Playbook - Do’s and Don’ts.

Many of what SGA voted unanimously on Dr. Voss’s suggestions. At the school bonfire, SGA put together tables and diligently set up all the ingredients to make s’mores.

Currently, the organization is conducting a survey to get student opinion on what changes could be made to the Swainsboro campus more enjoyable. The survey asks for what the students would like to see in the cafeteria, what kind of entertainment they would like on campus, whether they would like a unique step at EGSC, if they know what SGA does on campus, if they feel safe on campus, what kind of entertainment they would like on campus, and the kind of entertainment they would like on campus.

Art student uses photography to face her fears

by JOSHUA SMALLEY

This semester, Brianna Boyd, an East Georgia State College student from Covington, Ga., did a photo documentary project in her photography class. The project was exactly two days and an hour long, and documented the lives of campus police at East Georgia State College.

"We're talking about people who are here to help people," said Boyd. "I was kind of scared at first, but, when I was around them, they made me feel good and they were smiling every day."

"If I could have one thing people understood about police, it would be that all police officers are not bad." Boyd said. "I think people need to get people understand that police are like others and the campus are safe."

Officer Seckinger said he enjoys being a police officer because he can help others. Officer McCoy has been a police officer for 27 years and enjoys being an officer because he enjoys making people smile every day.

"The worst part of being a police officer is that many people don’t trust officers to keep them safe anymore," said Officer Seckinger. "It’s just a tough business and it’s hard to see the good in people when you have to see the bad side of people all the time."

"I really enjoy making people smile because I enjoy making people smile," said Boyd. "I think it’s important to remember that police officers are just like anyone else and they just want to help people."

Officer Seckinger walks the halls

MASON BEE HOUSES

"I just tried to focus on bees and what they would like or what they were attracted to," said Hannah Stanfield of her Mason Bee house project.

"I walked around the house and found things," explained Allison Oliver, while making bee houses. "You can be creative with anything—just use what you’ve got!"

A creative and innovative use of material of making bee houses, was how Art Professor Des-...

Opinion: A certain jar contains 60 jellybeans: 22 white, 18 green, 11 yellow, 3 red and 4 purple. If a jelly bean is chosen at random, what is the probability that the jelly bean will be neither red nor purple?

Q. A certain jar contains 60 jellybeans: 22 white, 18 green, 11 yellow, 3 red and 4 purple. If a jelly bean is chosen at random, what is the probability that the jelly bean will be neither red nor purple? 

A. 0.29  B. 0.35  C. 0.45  D. 0.54

Hoopee Bird Quiz

1. How does prokaryotic DNA differ from eukaryotic DNA? 

A. Prokaryotic DNA lacks nucleosomes.
B. Prokaryotic DNA lacks histones.
C. Prokaryotic DNA is replicated by a different mechanism.
D. Prokaryotic DNA is circular when unwound by BamH 1.

2. What is the name of the painting depicted on the jar?

A. "Oath of Horatii"  B. "Saturn Devouring One of His Children"  C. "Perseus with the Head of Medusa"  D. "The Cleopatra"

In this issue:

- The library, ACE, and professors are all dedicated to student success. Whether you are a freshman, transfer, or non-traditional college student, EGSC has the tools to help you. If you're struggling, come talk to a Professor, ACE, or the Library. If you feel stuck about what to do, why not visit the library and find information about your options. The ACE Center is open to assistance from every student.

- At EGSC, the professors are dedicated to student success as anyone. When speaking with Professor Andre Drummer, an Assistant Professor of Mathematics, she had this to say about the importance of meeting with professors during their office hours: "Students should identify their struggles early on and don't wait to seek help from their professor." The ACE Center is another great department that can be Statesboro's own "Grinch", while the Abrams campaign was sure to point you in the right direction.

- Every day is a new chance to make this trip to campus help students succeed. Whether you are a fresh- man, transfer, or non-traditional college student, the ACE Center is open to assistance from every student.

An exciting season for Men’s Basketball

by JOSHUA SMALLLEY

This year, Bobcat Basketball’s men’s team is a very young team with a few experienced players that are returning for the 2018-2019 basketball season. One of the returning players is Dallis Jacks, a point guard from Atlanta, Ga. “We are expecting him to have a really good season leading us this year in the point position,” said Head Men’s Basketball Coach Leroy Jordan, Jr.

Tyonn Stuckey, another guard, transferred to EGSC from Point University. Eugene Lambont Ballard, Jr., joins the Bobcats from Statesboro, while Datreon Robinson is from Riverdale, Ga. Kameron Miller is from Atlanta, and Jaylen Bussey is from Conyers. Kenneth Lee, Jr., is a guard from Greenville, Ga. This group of players rounds out the guard core. This team will play defense core as the season is going on. The Bobcats’ forwards and centers consist of Quenterius Murray from Washington County, Ga.; Kyron Gray from Hartsville, S.C.; Ta’san King from Snellville; and Modou Singateh from Douglasville, Ga. “We feel like, as a team, we can get better and become a team that can compete in this conference in the NJCAA Division I,” explained Coach Jordan.

During the first part of the season, they plan to build chemistry and see what kind of team is developed by January. During the Jamboree Season, the Bobcats had five wins and zero losses. Now, they are in the non-conference season. The real season is January through March. “By the time March gets here, we’re ready to make things happen,” said Coach Jordan.

Their first home game on November 7, 2018, the Bobcats were victorious over Brewton Parker. The three leading scorers were Kyron Gray, #24, with 15 points; Modou Singateh, #5, with 13 points; and Dallis Jacks, #1, with 12 points. It was an exciting victory for their home game.

As Coach Jordan stated, “We’re excited about what we have this year. Our 18-19 team is one of the 13 guys that really play hard and together.”
