Get Ready.
Get Set.
GO TO COLLEGE!
Get Ready. Get Set. Go to College!

If you’re going to achieve your dreams, you’ll need to gain certain knowledge, experience and skills. But before you can get there, you need to do a little planning now.

Don’t worry if you don’t know the answers yet.

Everyone struggles with these questions, and the answers often change as you get older.

Remember that it never hurts to rethink your interests, goals and dreams.

We challenge you to be bold. Believe in yourself. Be willing to work hard.

You can achieve your goals, including a college degree. Live a life fulfilled.
Imagine the possibilities

As a student, it may seem like you don’t have a whole lot of choices. As an adult, it sometimes may feel like you have too many choices. Along with the freedom to make choices come some tough questions:

Who will I be?
What do I like to do?
What’s important to me?
Where am I going?

So what do you dream about when you think about your future? Think for a moment.

It’s hard to imagine sometimes, because there are so many possibilities. But thinking about these questions now means more opportunities for you in the future. There’s no right or wrong answer. You just have to think about a direction.

**Dreaming is fun. But just dreaming won’t make a dream come true.**
You can do anything you want, but you have to work to reach those dreams.
If you dream of going to college, this booklet provides helpful information and resources to guide you. Good luck in achieving your goals, and feel free to contact East Georgia State College for assistance.

**3 STEPS TO COLLEGE ADMISSION**

1. Submit Application for Admission
2. Have high school and any college transcripts sent to the college
3. Provide test scores (SAT, ACT, COMPASS)

Then, apply for Financial Aid and submit all other required documents

(Some content provided by the Federal Student Aid office of the U.S. Department of Education http://studentaid.ed.gov/)
College Preparation Timeline

It’s never too early to prepare for your education after high school. Whether you are attending a technical college, a state college, or a research university, there are many things you can do now to ensure your success.

**Key actions you can take, grade by grade...**

**EVERY YEAR IN HIGH SCHOOL**

- Take challenging classes in core academic subjects.
- Stay involved in school and community-based activities that interest you or let you explore careers. Consider working or volunteering.
- Talk to your school counselor and other mentors about education after high school.
- Talk with your parents/guardians about saving and paying for college.

**9TH AND 10TH GRADE**

- Take interest and skills assessments to help you explore career options.
- Talk to your school counselor about career options and the education required for those careers.
- Review your high school plan. Take the most difficult classes you can handle. Stay focused on your schoolwork.
- Talk to your school counselor or teachers about Advance Placement courses. Find out what courses are available, whether you are eligible, and how to enroll in them.
- Begin maintaining a list of your awards, honors, paid or volunteer work, and extracurricular activities.
- Participate in academic enrichment programs, summer workshops, and camps with specialty focuses such as music, arts, and science.
- Use your time wisely: Work, volunteer, and participate in extracurricular activities.

**11TH GRADE**

- Meet with your school guidance counselor to ensure you are on track to graduate and fulfill college admission requirements.
- Explore careers and their earning potential in the Occupational Outlook Handbook at www.bls.gov.oco
- Attend college fairs and college-preparation presentations by college representatives.
- Sign up for classes that will earn college credit at greatly reduced tuition costs, such as the Dual Enrollment/Dual Credit program.
- Register for and take exams for college admission (e.g. ACT, SAT, or COMPASS).
- Mentor others and have a mentor for yourself.
- Request materials from colleges that interest you and visit their websites.
- Arrange campus visits to colleges of interest.
- Get a job to earn and save money for college, or explore your skills through an internship or apprenticeship.
- Research your options for college scholarships.
- Select the colleges to which you will apply. Keep a list of application deadlines for each college.
12TH GRADE
- Meet with your school guidance counselor to ensure you are on track to graduate and fulfill college admission requirements.
- Stay focused on your schoolwork.

SEPTEMBER - NOVEMBER
- Take or retake the ACT and/or SAT.
- Arrange campus visits to the colleges that interest you. It’s okay to go more than once.
- Create a resume of your academic, athletic and work activities, as well as other achievements. Prepare a portfolio if you’re interested in the arts.
- Ask for recommendations (if required) from teachers, counselors, coaches, and others who can comment on your abilities and talents.

DECEMBER - FEBRUARY
- Apply to the college(s) you have chosen. Some may have earlier or later deadlines. (Make copies of each application).
- Provide a copy of your high school transcript and test scores to the college(s).
- As soon as possible after January 1st, complete and submit your Free Application for Federal Student Aid (FAFSA), along with any other financial aid documents the college may require. You can complete the FAFSA online at www.fafsa.ed.gov.
- If you have questions about the federal student aid program or need assistance with the financial aid application process, call 1-800-4-FED-AID. You can also contact the East Georgia State College Financial Aid Office at (478) 289-2169.
- Attend a financial aid event if you haven’t already done so.
- Apply for scholarships offered by the college(s).
- Review your FAFSA Student Aid Report (SAR) for accuracy.

MARCH - MAY
- Choose the college you will attend, and notify in writing those colleges you were accepted to, but won’t be attending.
- Have your final high school transcript sent to the college.
- Work out housing arrangements. Will you be commuting or living in some type of housing, on or off campus?
- Send in any required forms or deposits.
- Sign up for housing and meal plans, if needed.
- Begin taking classes summer semester, if possible. It’s a great way to get oriented to college life.

SUMMER
- Get a job to earn money for college. The college’s career center can help.
- Review orientation materials from the college you selected and attend orientation.
- Visit the college’s websites often – it has most of the info you’ll need to know as a student, and lots of resources to help you succeed.
- Verify with the college that all required paperwork is completed.
- If living on campus, check to see what is provided by the college and what you’ll need to provide.
- Respond promptly to college correspondence.
- Create a budget with your parents so that you can manage your expenses.
- Contact your room-mate(s) and keep in touch over the summer.
- Know when classes begin. If living on campus, know when move-in day occurs.
- Be organized and stay on top of everything. It’s a lot to do, but well worth the effort when you receive that college diploma. Good luck!
If you think you can’t afford to go to college, think again.

Financial Aid has helped millions of students pay for their education beyond high school.

College is an investment with a lifetime return on investment. A college education provides a student with exponential opportunities to build upon as he or she embarks on personal and professional goals.

There are multiple financing options available to attend college, including grants, loans, scholarships, and work-study programs. Regardless of your financial position, it is possible to make your dream of completing a college degree a reality.

WHAT DOES COLLEGE COST?
Cost of attendance varies from college to college. The financial aid package you receive will also vary based on the college you choose.

The cost to attend college for a full year is more than tuition alone. There are additional expenses, including books and supplies, personal spending, food, transportation, and housing.

These costs are all taken into account when the college determines your financial aid award.

MAKE SMART FINANCIAL DECISIONS

For example: East Georgia State College has the lowest total cost in the University System of Georgia and among the lowest in the U.S. (Per Semester) 2014-2015

</tr>
</tbody>
</table>

* Colleges offer options. This is an example of one typical option at each institution.

HOPE will pay $77 per credit hour ($1,155 for 15 hrs) to students that graduate from high school as a HOPE Scholar, maintaining a 3.0 HOPE curriculum G.P.A. However, a student may gain HOPE after entering college and completing 30 semester credit hours and maintaining a 3.0 G.P.A.

Federal Student Loans: Up to $5,250 per semester may be paid by Federal student loans and Federal parent loans, if a student meets federal requirements.

PELL: A student may receive up to $5,730 annually from the PELL grant, if eligible.
About Financial Aid

Although college prices continue to rise, they may not be as high as you might think. And, few students or families are expected to pay out of pocket the full two-or four-year price of attendance.

Obtaining a college degree is an investment in your long term potential, so don’t let the apparent cost turn you away.

Financial aid is available to most students and comes in three forms:
- Financial aid you don’t repay (grants and scholarships)
- Financial aid you must repay (loans)
- Financial aid you earn (work study or military service)

TYPES OF FEDERAL AID
1. FEDERAL PELL GRANT
   - Estimated Family Contribution
   - $5,645
   - $5,801

2. FEDERAL STUDENT LOANS
   - Subsidized – No interest while in school
   - Unsubsidized – Interest once disbursed
   - Must be enrolled for 6 hours
   - Remember: UNSUB CAN UNDO YOU!

   FEDERAL STUDENT LOAN LIMITS
   Subsidized - Freshmen & Sophomores
   Unsubsidized - Dependent & Independent Students

TYPES OF STATE AID
HOPE SCHOLARSHIP
- Merit Based
- 3.0 GPA
- GSFC & Eligibility

Most students receive a combination of these in what’s called a Financial Aid Package that is put together by the college the student plans to attend or is attending.

Financial aid is intended to fill the gap between the actual price of the college and what students and their families can realistically contribute from savings and income to pay for higher education. This is called financial need. It allows students to attend college with a cost they otherwise might not be able to afford. The student, the student's family, and taxpayers (through financial aid) all share responsibility for paying for higher education.

Applying for financial aid can be a long and confusing process because it involves several steps. Apply early and seek advice from the financial aid office at the college you are interested in attending. Trained staff can help you identify available financial aid based on your personal circumstances.

East Georgia State College: www.ega.edu or 478-289-2169
Who’s Eligible?
Dual Enrollment/Dual Credit courses are primarily available for any eligible 11th or 12th grade high school students (and in some limited cases, 9th and 10 grade students). Students must have a high school GPA of at least a 3.0 and qualifying SAT or ACT scores to be considered for dual enrollment.

Coursework
Students may enroll full-time or part-time in approved credit-bearing college-level courses by the State Board of Education. Courses may be taken before, during, or after regular school hours, on the college campus, on-line, or at the high school during the regular school calendar year.

What are the Dual Enrollment/Dual Credit Programs?
ACCEL is a non-need based program offered for students who wish to take college-level (academic only, degree level) coursework for credit toward both high school and college graduation requirements. Students may attend part-time or full-time.

MOVE ON WHEN READY requires an eligible 11th or 12th grade student to be full-time and take ALL of his or her courses through an eligible postsecondary institution. Students receive secondary and college credit for completing graduation and high school diploma requirements.

What are the benefits of dual-enrollment participation?
- Eases the transition from high school to college.
- Provides students an early start on their college careers.
- Offers meaningful and challenging academic experiences to qualified students.
- Provides early college opportunities for students to try who normally would not attend college.
- Students will have flexible scheduling opportunities because courses can be taken anytime and on-line.
- College tuition and expenses can be fully or partially covered, depending on dual enrollment program, which saves the parents/students money and time.
- Reduces college courses and attendance time after high school graduation.

For more information, talk to your school counselor.
You can also contact East Georgia State College at 478-289-2169 about their Dual Enrollment Program: Bobcat PRIDE (Prove Readiness In Dual Enrollment).

COMPASS Testing

What is the COMPASS Exam?

The College Placement Exam, COMPASS, is a computerized placement exam that tests reading, writing, and math skills. COMPASS helps identify your strengths as well as the knowledge and skills you will need to succeed in specific subject.

The COMPASS is used as an entrance exam to determine admissibility to East Georgia State College.

COMPASS exam requirements are determined by the SAT Critical Reading and Math scores or ACT English and Math scores, in addition to meeting the 4 Required High School Curriculum (RHSC) units in English and Math.

EGSC’s Office of Admissions offers the exam to students Monday through Friday between the hours of 8:00 AM and 3:00 PM. No appointment is necessary.

Students who need accommodations on the COMPASS Exam or have an IEP, should contact the Counseling and Disability Services Office at (478) 289-2039.

Students who wish to take the Compass for another institution, or for POST-certification, will be required to pay a $25 fee and will be tested on an as-available basis.
Get ready. Get set.
Jump into a better future!

Jump Start Academy is a summer program designed to provide students who are provisionally accepted (as well as those regularly admitted) additional academic assistance to be the most successful student they can be.

Students who are provisionally accepted and pass all summer courses and earn a “C” average or better (2.0 GPA) in those courses can be regularly admitted for the Fall 2015 semester.

The program is available at all three campus locations (Swainsboro, Statesboro, and Augusta) and is an excellent way to "jump start" your college studies, meet faculty, learn how to manage the independence of college life, live in on-campus apartments, and most importantly, make new friends and connect to EGSC.

Currently, on-campus housing is only available at the Swainsboro campus. Housing for those attending Statesboro or Augusta will need to be secured by the student.

For more information: contact East Georgia State College's Office of Admissions at 478-289-2169.

Resources: http://www.ega.edu/academics/summer-jump-start-academy

What is Included in the Program?
- $20 Application Fee waived for applicants
- 12 available Housing spots guaranteed for Fall upon successful completion of program
- Jump Start Student Success course
- Learning Communities in English and Math
- Additional tutoring assistance in the ACE (Academic Center for Excellence)
- Assignment of a faculty mentor

Who is Eligible?
- Any student is eligible to participate in the Jump Start Program.
- Especially beneficial for students who either scored below the minimum COMPASS placement score requirement or were placed in all three areas of Learning Support.
- The Program has limited spots, so apply early.

For more information: contact East Georgia State College's Office of Admissions at 478-289-2169.

The EGSC Foundation also offers scholarship opportunities for non-traditional students (individuals who have been out of high school for 5 or more years).

During the year, other one-time scholarships are made possible through varied sources and benefactors. Students are notified via e-mail of these opportunities.
The Correll Scholars Program was established in 2014 to recognize and prepare exceptionally promising students as future community leaders in our region.

• Awards are $5,000 per student, renewable annually, for a maximum of four years. Twenty scholarships will be awarded each year.
• Students must attend East Georgia State College’s Swainsboro campus.
• Correll Scholars who meet eligibility requirements and continue their studies as a junior or senior in a baccalaureate degree program at EGSC will be given first consideration for subsequent year awards.
• Students must attain qualifying enrollment status to receive subsequent year funding: “sophomore” for year two, “junior” for year three, and “senior” for year four.
• No minimum high school GPA or test scores. Primary focus is leadership and service.

APPLICATION PROCESS

The Application process is designed to identify students who demonstrate the talent, motivation, and potential to transform themselves and their community.

• Completion of EGSC Admissions Application (Automatic Non-Resident Waiver) and college acceptance.
• Completion of the Correll Scholars Program Application.
• Submission of an essay, “How will you use your education to transform your community?” (1000 word maximum).
• Interview
**Students of Excellence Who Strive to Make Transformational Contributions to Society**

**SELECTION OF SCHOLARS**

Each spring, applicants will participate in the “Correll Scholars Selection Day” for interviews with faculty, staff, community leaders, and donors. Scholars will be selected based upon committee approval.

**CRITERIA**

<table>

**RIGOROUS PROGRAM STANDARDS**

- Maintain a 3.0 GPA or higher.
- Complete at least 26 credit hours in the first year to maintain eligibility for year two.
- Participate in a one hour credit course each semester that focuses on issues and challenges facing our region and work collaboratively to design solutions for those challenges.
- Actively participate in tutoring and mentoring of local high school students at the Fulford Center.
- Attain the Service Seal of Distinction.
