SERVSAFE REMINDER
ServSafe Training is scheduled for March 22 and 23. To register or for more information, please contact Marnie Dekle, UGA Extension Agent, at (912) 685-2408.

FABULOUS FEBRUARY! SOME OF OUR RECENT VISITORS…

Message From the Director
As spring is approaching, there is much excitement about upcoming events! Planning for our summer camp program is well underway. A variety of camps are being scheduled throughout June and July for rising kindergarten through sixth grade students. In its fifth year, the nationally-recognized Camp Invention® will be offered in July. Additional information about this year’s Camp Invention® can be found within this newsletter. We are also partnering with Emanuel Arts Center and Statesboro’s Averitt Center to offer a Travel Through Time Art Camp. More details will follow in our April newsletter, and summer camp flyers will be distributed to local students in April. If you have questions related to our camp program, feel free to contact the center.

We hope you’ll join us soon for another fun-filled month at the Fulford Center! Happy Spring!

FULFORD CENTER STAFF

March 24——Carver Elementary 5th Grade Visitation
March 27——EGSC Foundation Meeting
March 29——EGSC Institutional Advancement Lunch and Learn
Every year the Camp Invention® curriculum changes, keeping it fresh and fun! This year’s curriculum is Launch, and here’s what’s on deck for the participants this summer.

**Duct Tape Billionaire™**
We’re looking for a risk-taking, duct-taping dynamo to start the next big accessory business! Children will experience invention with a twist in Duct Tape Billionaire. Children can choose to explore their imaginations and invent from scratch, or they can select a basic design to make their own. They explore patents, hear how to launch a business, and present their products to mock investors.

**Mission Space Makers™**
This mission takes children out of this world to locate and prepare a new planet for human habitation. Mission Control sends each team challenges to design inventions that transform the atmosphere, terrain, and ecosystem of an exoplanet. Campers set up a Space Lab to hatch eggs and grow crystal trees, take on the jobs of tomorrow, and explore beyond our galaxy.

**Have A Blast™**
Participants will fling, fly, and float through high-energy air battles while using physics to boost their advantage. Children engineer a variety of working tools, including “snowball” throwers, a giant air cannon, and more. Everyone builds his/her own high-tech Bubble Blaster with flashing lights to take home. This summer, Have A Blast that will last a lifetime.

**Operation Keep Out™**
A young inventor’s dream come true, children create the ultimate Spy Gadget Alarm Box to keep treasures secure! They must decode a note written in invisible ink to find a missing tool, use spy glasses to catch a toy thief, and discover that both spies and engineers write in secret codes!

If you have questions or want more information about Camp Invention®, please contact the Center.

To schedule an event or a planetarium visitation, give us a call at 289-2464. Our classroom can accommodate up to seventy people, and we have first class catering. We currently have fourteen planetarium shows to educate, entertain, and amaze all ages.
