East Georgia State College's vision of service informs a strategic plan that focuses on the next three years and rolls forward annually. The College's strategic planning priorities are aligned with the University System of Georgia's strategic plan and are advanced by departmental goals that are realized through action plans. An ongoing assessment process is incorporated in the strategic plan and provides the measures of institutional effectiveness. All departments of the College are assessed annually based on their support of the College's strategic plan implementation and on evidence of continuous improvement in operations and outcomes.
